

Revolution IT » Training

Our training services build careers and entire companies.

It's not just our industry-leading pass rates, or the fact our training professionals are also seasoned IT consultants. Nor is it just our small class sizes that allow so much individual help.

More than anything it's our passion.

It's this passion that drives how we deliver solutions, services and products for top-tier companies. And it's the same passion that underpins how we teach, train and support professionals at all levels.

"Choose a multi-award winning company with the highest pass rate in Australia."

- Data collected from BRW Magazine

THINKSPACE WORKSHOPS

To build capacity fast, get to grips with simple-yet-powerful solutions using our advanced workshops.

[// See page 3](#)

PROCESS AND METHODOLOGY COURSES

To advance your career, discover courses for testers, test managers and more.

[// See page 4](#)

SOFTWARE TRAINING COURSES

To acquire new skills, get to know our high-quality training courses for key software products.

[// See pages 5 and 6](#)

Customise your training and delivery

We can customise our standard courses to suit your needs. We can deliver training onsite, or at our specialised training facilities at central locations around Australia and in Singapore. If you would prefer online learning for your team, speak to us about the options.

Flexible delivery options

It's enough of a challenge scheduling training for one person, let alone a whole team. Talk to us about how we help keep disruptions to a minimum.

Value of Investment

We can also lend a hand to define and assess the Value of Investment (VOI) our training will deliver.

Credits and accreditations

- > ANZTB Accredited Training Provider
- > HPE Authorised Training Partner
- > ISTQB Accredited Training Provider
- > SAP's Testing Partner of Choice

TURN OUR SMARTS INTO YOUR SMARTS

Be impressed by what you can do Be inspired to get out and do it

To leapfrog your competitors, discover these workshops today.

For individuals...

These workshops offer insights, inspiration and know-how. Our aim is to inspire managers, directors and professionals to drive change with what they learn, and thereby sponsor individual career goals.

For organisations...

These workshops build capacity fast. Literally overnight. Innovative solutions become easier to reach, and measurable performance improvements for organisations follow close behind.

Our most senior consultants deliver these workshops on request. Talk to us about what you need, and then we'll go to work designing a ThinkSpace Workshop that delivers clear benefits unique to your business.

WE HAVE A PASSION FOR TRAINING SPECIALISTS AND ANALYSTS

Innovative test managers and up-and-coming software testers: each year we help hundreds of professionals step up in their careers, and dozens of companies make giant strides in IT service delivery. We've also built up an industry-leading pass rate: 98% on first attempts.

Our Process and Methodology Courses

ISTQB Foundation Certificate in Software Testing	3 days
ISTQB Advanced Test Analyst	4 days
ISTQB Advanced Test Manager	5 days
ISTQB Advanced Technical Test Analyst	3 days
Agile Testing	1 day

"I found the Agile Testing course extremely worthwhile and great value for money. As an independent participant I felt very welcomed by Revolution IT. Very good course and presenter!"

-Jenny Mastello, Test Coordinator
